Organized by the Slovenian Association for Maxillofacial and Oral Surgery
Združenje za maksilofacialno in oralno kirurgijo Slovenije - ZMOKS

Info: www.zmok.si
Dear colleagues,

It is my pleasure to invite you to the 9th Zoboski International Seminar to beautiful Arabba. As always, the focus of the seminar are advanced implantological procedures and prosthodontics, with lectures in the afternoons and hands-on workshops in the mornings. The Seminar is organized by the Slovenian Association for Maxillofacial and Oral Surgery (ZMOKS) and is held in Hotel Grifone (www.hotelgrifone.com).

This year, the main topic will be periimplant soft tissues. We’ve put together a respectable International Faculty that will cover the following topics:

1. Bernd Giesenhagen - Vertical augmentation with Bone Rings: Techniques to close the wound safely after extensive augmentation in different areas of the jaws
2. Adrian Kašaj - Gingival recession coverage: Do we still need autogenous grafts?
3. Stavros Pelekanos - Enhancing the implant site and contour development

Other topics, e.g. reconstruction of periimplant fixed gingiva, coping with the maxillary sinus, various prosthodontic procedures etc., will be covered by the Slovenian Faculty and will be described in detail in following announcements. All the lectures and workshops will be conducted in English.

Further information is available on the ZMOKS website (www.zmok.si). You can also send us your e-address to info@zmok.si and you will receive further information by e-mail.

Best regards & see you in Arabba!

Doc. Aleš Vesnaver, MD, PhD
President of the Slovenian Association for Maxillofacial and Oral Surgery
